

School Football Team

Reported by Oliver

The school football team made an incredible comeback at the recent school football tournament. After losing their first 2 games, they came back to third place following some superb victories. The school children were pleasantly surprised when Mr. Sanson announced in assembly that they had finished third. They even drew against the team that won the tournament in the last game they played.

The players that played in the tournament were: O K, RB, JC, H P, J P, L J, M R, FR and J G (who was also the captain).

We asked R how he felt about the tournament. He replied that in the first game that they lost, they deserved to win, whilst in the second game they were still recovering from their first game. Therefore, this ended up as a loss. However by the third game, they had forgotten about their first two matches and came out with a win.

The school football team thought they could come in the top three if they worked well as a team, so in their minds they succeeded so they're very happy. We hope you are too because the top three was their goal and they achieved it!
