

Learning to lead ambassadors

As we have now started our learning to lead curriculum, Mrs. Petipher has carefully chosen children to become ambassadors. I have a quote from one of 5HP's ambassadors, F C: "I like being an ambassador because you can work with other children in different environments." As you can see, she and many others thoroughly enjoy their jobs.

They are being faced with many of the challenges you are, such as: using their collaboration and organisation skills to succeed in different tasks . The learning to lead ambassadors are currently not only completing tasks but are also trying to encourage you to complete your booklets . This report is coming from a learning to lead ambassador and I strongly recommend you try to complete your booklet soon.
