

Portsmouth Music Hub

Four amazing musicians, from the Portsmouth Music Hub, came in to show us some of their music. One of the musicians also used their voice to show us how you can create music without instruments. Also they asked us if we could come along and join the Portsmouth Music Hub. They performed their music to us that they had learnt. They also played movie themes and we had to guess what they were. Here are some examples: Indiana Jones, Star Wars and also a variety of Mary Poppins songs, not to mention the piece from Charlie and the Chocolate Factory .Each one of the people who came in had a musical instrument. These are the instruments: piano, flute, violin and a trumpet.

Overall we liked it a lot, especially J.M: "I liked it because it gave a picture in mind of each theme tune."
