

**PSHE/English:**

Can you write a poem about your time in Year 4?

Think about what you have learnt, what you have enjoyed and what you are looking forward to most next year.

**Geography:**

Can you create a poster, presentation or rap to teach somebody else how different physical processes such as a river, mountain or volcano are formed?

Use the internet to support your research.

**Music**

Can you look at your favourite song and discuss the tempo, dynamics, pitch and timbre?

Can you then repeat this with a different song? (maybe a grown up's favourite song)

Then write a review for each, explaining what is the same and what is different and which you prefer and why, using these terms.

**PE/GYM:**

Can you create your own challenge which people could compete on Sports Day?

You must create instructions on how to play it, including: what equipment you need; the rules to follow; and how the pointing system work.

Think of an unique name for it as well.

You will be able to teach it to the class if you wish to.

**Science**

Can you create your own string telephone and create a poster to go with it to explain how it works?

Try to make two of different lengths and explain how it makes it different.

**Art:**

Can you create a piece of art using collaging techniques?

You could use scraps of different materials around the house such as newspapers, magazines, recycling etc.

Choose one of these activities to complete this half term. Feel free to do more than one if you wish! The deadline for this is:

**Wednesday 19th July 2023**

If you finish before, you can bring it in.
