

**English:**

Can you write a poem about your time in Year 4?

Think about what you have learnt, what you have enjoyed and what you are looking forward to most next year.

**Geography:**

To research Fair Trade and make a poster or leaflet explaining Fair Trade to a Year 3 student to prepare them for this topic in Year 4.

**Art**

Find an object around the house and create a still life drawing. Use tints and shades to make the object appear 3D!

You can either paint or colour the drawing in.

**PE/GYM:**

Can you create your own challenge which people could compete on Sports Day?

You must create instructions on how to play it, including: what equipment you need; the rules to follow; and how the pointing system work.

Think of an unique name for it as well.

You will be able to teach it to the class if you wish to.

**Science**

Can you create your own string telephone and create a poster to go with it to explain how it works?

Try to make two of different lengths and explain how it makes it different.

**Computing**

In computing this half term we are going to be looking at audio recording and creating a podcast.

Create your own podcast on a topic you love!

This can be on anything from video games to books or food to music—you choose!

Choose one of these activities to complete this half term. Feel free to do more than one if you wish! The deadline for this is:

**Wednesday 19th July 2024**

If you finish before, you can bring it in.
