

Year 6 Topic Homework Menu: Moving on

Due in: Monday 22nd July 2024

Choose one of these topic projects to complete this half term. You can bring it to school before the end of term if you finish early, and don't forget you can complete more than one!

English:

Can you choose your favourite fairy tale, traditional tale, or other short story, and re-tell it with a twist?

You could re-write it as a narrative with a small change to it, you could re-write it from the perspective of a character, or you can re-write with a mixture of two stories.

Here is an example of one way you could do it:

DT

Can you find a recipe which you think looks tasty, or an adult in your family recommends?

Have a go at following the recipe, including using the correct quantities of each ingredient.

OR

Write your own recipe, taking inspiration from others, explaining the process taken.

For either one, take pictures of the process to show the class, and write a review of the process.

Music

Can you make your own untuned instrument to bring in as part of our end of year music performance?

OR

Can you write and compose your own song inspired by summer? You can either perform it to the class, record yourself to show everyone, or simply bring in your lyrical sheet.

Computing

Can you propose a plan for a new website which you think should be created?

You must include the name, what it looks like, where the links will take you etc.

You can present this either on paper, or on the computer as a word document or PowerPoint.

Maths:

Using this QR code, choose 3 different maths investigations to complete (you can change the age and challenge level to find ones perfect for you). This is the same link as last half term, but we want you to complete 3 different ones.

Not only answer them, but create an explanation (could be written in a paragraph, or presented as a poster etc) to show **how** you solved it.
