

Reception Homework Menu Autumn 2
Let's Celebrate

Below are some different activity ideas you can have a go at over the next half term. You can share some pictures on Tapestry or bring in what you have created. It would be lovely for us to see them and share them with the class. This topic is about everything to do with water, things that live in the sea and pirates!

Make a card for a special celebration to give to a friend or someone in your family.

This may be to celebrate a birthday, a christening, Diwali, Christmas or another celebration that is special to your family.

Create a firework picture using chalk, paint, crayons, felt tips or pencils.

As you continue to learn new sounds in phonics, can you spot them in the environment and find things beginning with each sound. Can you read any words in your reading book?

As it gets closer to Christmas, wrap up warm and go on a wintery walk and see how many different Christmas lights you can find? Can you spot a house that has lots of different coloured lights? You could warm up with a tasty hot chocolate after!

Play your favourite board game. Can you count how many spots are on the dice and move your counter the correct number of spaces.

Practise writing your name. You could trace it, copy over it or even write it on your own.

Write Your Name

George

Trace your name:
