

## Maths

If you know arithmetic is a target of yours, complete one of the practise papers on this QR code, then mark it using the answers provided.

As your project, let's learn to celebrate and learn from our mistakes. Pick 3-5 questions you got wrong, and create a poster explaining what your mistakes were and how it should have been done.

## Writing

Can you choose your favourite book character, and write a character description for them? Try to include expanded noun phrases, figurative language and high-level vocabulary.

OR

Can you choose your favourite book, and create an extra scene for it? Try to include a range of sentence types, and speech.

You can then share your writes with the class.

## Year 6 Spring 2 homework

### menu

Choose one or more of the projects, and complete ready to bring in on the 25<sup>th</sup> March

### PE

Complete the activities found on page 3, to discover some OAA activities that you can practise at home.

If you have a younger sibling/s, you could teach them the activities in page 2.

## Science

Make a model sundial

You must also include:

How did you make your design?

Where did you get the design ideas from?

What is it made of?

How does your sundial work?

Does it have to be put in a certain position?

You must include a list of websites/books you use.

### DT

Design and build a mini playground prototype using recycled materials.

You must include:

At least 3 different pieces of apparatus

A clear footprint plan (drawn first)

A labelled diagram with design criteria

Some attempt at strengthening

At least one example of "cladding" (covering or finishing)
