

Reception Homework Menu
Topic: Down at the bottom of the Garden

Below are some different activity ideas you can have a go at over the next half term.

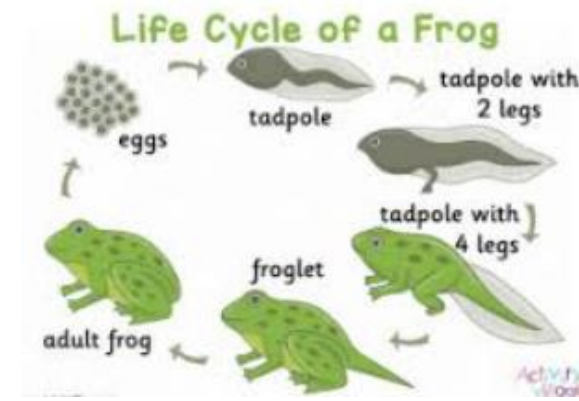

Continue to read your school book **4 times a week.**

Plant a sunflower seed and see how tall your sunflower can grow. What will your sunflower need to grow? Can you draw it once it starts to appear?

As part of our topic, we will be thinking about life cycles. See if you can find some information about the life cycle of a frog / chicken / butterfly. Draw the life cycle you have chosen.

Paint / draw / create a picture of a butterfly. (We are going to be looking at butterflies during this topic)

Visit a local pond and look at all the living things. Make a list of what you see. It could be flowers, trees or grass. You may even see some ducks, birds or insects too!

Practise writing your numbers up to 20. Make sure all the numbers are facing the right way! If you can do to 20, can you do to 30? Maybe even 40?

Number Formation

Can you trace the numbers?
