

PSHE/English:

Can you write a poem about your time in Year 4?

Think about what you have learnt, what you have enjoyed and what you are looking forward to most next year.

Geography:

Can you create a storyboard or a cartoon strip to show the journey of a cocoa bean?

Use the internet to support your research.

Music

Create a poster about the Trumpet music workshop to share with Year 3.

This poster could include:

What family of instruments is the trumpet in?

What is the trumpet made of?

How does a trumpet make sound?

Where might you hear a trumpet being played? (e.g. bands, orchestras, events)

Can you name a famous trumpet player?

PE/GYM:

Can you create your own challenge which people could compete on Sports Day?

You must create instructions on how to play it, including: what equipment you need; the rules to follow; and how the pointing system work.

Think of an unique name for it as well.

You will be able to teach it to the class if you wish to.

DT:

Write a step-by-step recipe for your favourite meal, including a list of ingredients and clear instructions. Use a simple budget to plan the cost of your ingredients, as we will use similar skills to create our own biscuits in DT.

Science

Thinking about our last unit in Science on Digestion and food, can you create an informative poster, explaining why teeth are important to animals?

Choose one of these activities to complete this half term. Feel free to do more than one if you wish! The deadline for this is: **Tuesday 14th July 2026**

If you finish before, you can bring it in anytime before this date.
