

Year 5 Summer 2 Homework

Choose one of these activities to complete this half term. Feel free to do more than one if you wish! The deadline for this is

Wednesday 15th July 2026

Create an Alpine Travel Guide

Design a travel guide or magazine about the Alps. Include maps, top attractions, climate information, local foods, and activities for tourists. Use drawings, photos, or even digital tools like Canva or Google Slides.

Build a 3D Model of the Alps

Use materials from home (e.g., cardboard, papier-mâché, clay) to make a 3D model of the Alps. Include labels for physical features like peaks, rivers, valleys, and towns.

Innsbruck vs. Our Town

Create a project comparing your local area to Innsbruck. Include sections on climate, buildings, transport, school life, and leisure. Present your findings as a double-page poster, a booklet, or a PowerPoint.

Alpine Wildlife Documentary

Research three animals that live in the Alps. Create a nature documentary or slideshow that introduces each one and explains how they survive in a mountainous environment. You can record a voiceover or perform live.

Design an Alpine Adventure Park

Imagine you've been asked to design a family adventure park set in the Alps. Plan the layout on a large poster, describing the attractions (e.g., zip-lines, toboggan runs, snow play areas) and how they fit into the mountain setting.

Design an Alpine Adventure Park

Imagine you've been asked to design a family adventure park set in the Alps. Plan the layout on a large poster, describing the attractions (e.g., zip-lines, toboggan runs, snow play areas) and how they fit into the mountain setting.
